

SOCIETY

Dinner parties yesterday were numerous, and it is safe to say that turkey stood a poor show all over the city.

The skating rink continues to draw crowds of young people, and the enjoyment and benefit derived from the exercise is great.

During the past week every one has been preparing for the celebration of Thanksgiving in a fitting manner, therefore very little has transpired in the society circles of Fort Pierce.

The next Dime Tea will be given by Mrs. H. B. Paxton next Thursday afternoon from three to five o'clock. The tea given by Mrs. Tyler last week was the first one of these delightful functions this season. They will be among the regular events during the coming winter.

The entertainment given at the Improvement Club hall last evening was a decided success, as are all their functions. We regret that time will not allow us to make a more extended notice of the affair. Suffice it to say that each number on the program was rendered in a perfect manner and everybody was well pleased. Dancing followed the entertainment.

The Improvement Club opened their sitting room yesterday and the board of directors and others of the club received their friends there from 3 to 5 o'clock. This day was the first anniversary of the opening of the club building and shows a marked growth and improvement in our town, a great amount of which the members of this club are responsible for and in which they are interested.

A new industry for Fort Pierce and one which will be the source of much profit is the putting up of shredded pineapple. B. F. Cook is sending samples this week to Wisconsin, where it will be compared with the so-called pineapple products of that section. He uses only the ripe pines and has at present only a small machine for shredding. We have no hesitancy in saying that his product will excel the factory made jams, etc., in the northern market under the name of pineapple.

Fined For Gambling.

Sheriff Lennard made quite a haul Saturday when he gathered in nine negro men and charged them with gambling. The were arranged before County Judge Andrews, where the sheriff explained to the Judge that he had hoped to catch some of the professional gamblers who lie in wait for the time when the working men have money and then fleece them, but had only caught nine hard working men, all of whom live in town, and asked that the court be light on them.

When asked by the court what they had to say, each one explained that they had only started but had intended to gamble when the sheriff fell down among them. All plead guilty and the fine was placed at \$2.00 and cost in each case, except a one-armed man who was let off with cost alone.

The judge gave them a lecture and told them if ever they came up before him again on that charge he would not be light on them.

The fine was paid by each, and it is hoped they will profit by the judge's words. The regular gamblers are the ones the officers are after, and it is likely they will get them.

MONEY IN REAL ESTATE

The safest and most certain way to make money is to invest in improved or unimproved property in the rich and rapidly developing county of St. Lucie.

WHAT OTHERS HAVE DONE

The most prosperous people in this county are the ones who have bought land and developed it into the big dividend-paying pineapple plantations, orange grove and vegetable farms.

YOU CAN DO THE SAME

We have for sale improved properties which will pay a yearly profit of 25 per cent to 33 per cent on the investment. Or we can sell you unimproved land, suitable for grape-fruit, oranges or vegetables, which will richly repay cultivation.

FORT PIERCE, FLORIDA

Carl C. Curtis, representing the Cable Piano Company, was in Fort Pierce Wednesday. His headquarters are in Jacksonville, but Mr. Curtis has many old friends in this section who remember him as one of the most popular pursers of the old steamboat days. His experience as a salesman extends over many years and undoubtedly his firm will have a good trade on the East Coast while he handles the road business.
